

MOVE R

DL680 - SEMI RECESSED ADJUSTABLE DOWNLIGHT

Highlighting Artwork & Retail Displays

The Move R from Vision Lighting is a round, modern ceiling light that utilises a fully adjustable system to pivot in any direction.

Constructed from a steel and aluminium body with a gloss powder coat finish, the Move R is designed to meet your needs. Rotatable on its own axis, the Move R is also tiltable to ensure light is focused where its needed.

Semi-recessed, the Move R is an ideal option for spotlighting a feature and is especially suited to art gallery or retail applications where displays may change position.
