

# FUSION

## DL47 - DOWNLIGHT

### *Tailored Illumination*

The Fusion downlight range from Vision Lighting is available in one, two or three head configurations and provides adjustable illumination in a modular, recessed luminaire.

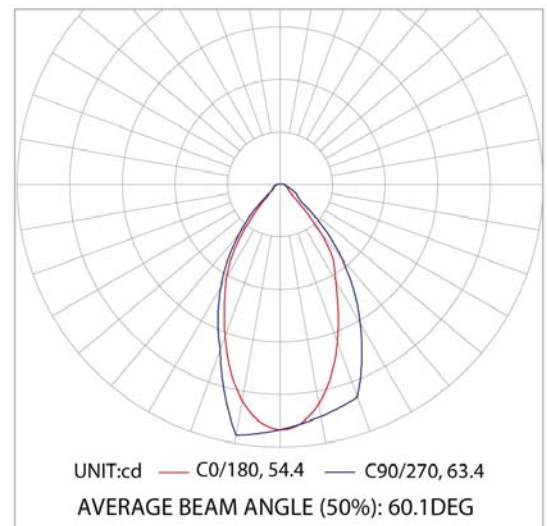

Constructed from an aluminium profile to ensure excellent heat dispersion, the Fusion includes a short heat sink, making it ideal for where space is limited.

Dimmable and with a 25° adjustable head, the Fusion features a reflector and COB high power COB LEDs making it the perfect choice for retail, office, education and hotel applications.
