TRF14C - DIFFUSED TROFFER LUMINAIRE

Concealed Air-Handling

The Aries is a high-performance LED troffer designed specifically for modern commercial spaces. Sleek and discreet design to seamlessly integrates into T-bar ceilings.

Aries features concealed return air slots. This allows the troffer to serve as both a quality office light and a return air vent, eliminating the need for unsightly holes in the middle of the fixture.

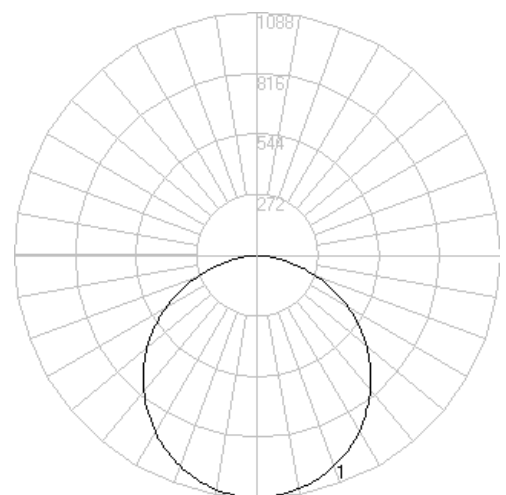

The troffer features a diffused LED system, ensuring uniform and glare-free illumination. Quality componentry used for performance and lifetime.

Standard sizes include 1200 x 300mm and 600 x 300mm. Custom widths are possible, subject to minimum order quantities.

PRODUCT SPECIFICATIONS
