

LED PANEL

PLB - LOW GLARE BACKLIT LED PANEL LUMINAIRE

Efficient Illumination

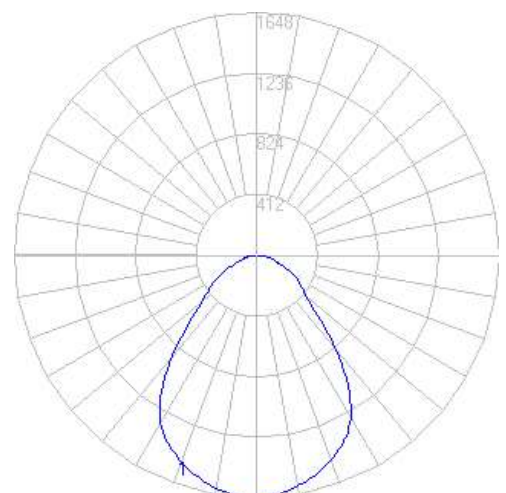

The Vision Lighting LED panel offers efficient and effective illumination for commercial office spaces.

Designed to maximize energy efficiency with its backlit feature, providing bright and uniform lighting while minimizing power consumption. The microprismatic diffuser ensures low glare, making it comfortable for extended use.

Designed for T-bar ceilings, with mounting accessories available to suit either plaster-recessed or surface mount applications. Choose the Vision Lighting LED panel for smart, efficient illumination in your office fitouts!
